## PROFESSIONAL SUMMARY

A dedicated and proactive Java Full Stack Developer with experience in building and deploying dynamic web applications. Skilled in the end-to-end development of high-performance software solutions, including backend development with Spring and Spring MVC, and frontend development using ReactJS. Proficient in Java-based frameworks and equipped with strong knowledge in MySQL, RESTful API design, and efficient database interactions. Demonstrates an aptitude for quick learning and adapting to new technologies, driven by a commitment to continuous improvement and delivering robust software aligned with industry best practices.

## EDUCATION

### Sri Krishna Institute of Technology

*B.E. in Computer Science and Engineering; CGPA: 72.1/100.0*

Bengaluru, India

*Aug 2019 – July 2023*

### Nagarjuna Pre-University

*Pre-University Course in PCMC; Percentage: 74.33/100*

Bengaluru, India

*Apr 2017 – Apr 2019*

### Kendriya Vidyalaya

*High School; CGPA: 7.0/10.0*

Bengaluru, India

*Apr 2016 – Mar 2017*

## SKILLS

- **Programming Languages:** JAVA, C, Object-Oriented Programming
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Collection FrameWork, Spring, Spring MVC, RestAPI, ReactJS, JDBC, J2EE
- **Database:** MySQL
- **Tools:** Git, Postman, Eclipse, IntelliJ, Spring Tool Suite

## PROJECTS

### Vehicle Brand Detection based on Number Plate (Final Year Project) .

- Developed a deep learning model using convolutional neural networks to detect and classify vehicle brands, applying object-oriented design principles. Integrated with a backend database to manage owner information, highlighting database management and integration skills.
- Executed rigorous testing and debugging for reliable, accurate results and minimized errors, focusing on automation where possible to streamline quality assurance.

### Placement Management System (Java) .

- Created a comprehensive Placement Management System using Java, MySQL, and JDBC, facilitating student registration, job postings, interview scheduling, and result tracking, demonstrating full-stack development and system design capabilities.
- Implemented source code management strategies, rigorous error handling, and debugging processes, enhancing system stability and maintainability.

### Online Food Ordering Management System (Java) .

- Developed an Online Food Ordering System in Java, focusing on a user-friendly frontend interface and seamless order processing. Integrated JavaScript and HTML5 for frontend functionality and connected to backend services for streamlined order management.
- Created test automation scripts to verify system reliability and functionality, applying debugging techniques for enhanced performance and stability.

## CERTIFICATES

### Front End Development

*Completed coursework in HTML, CSS, and JavaScript*

*June 2022*

### Java And Spring Framework for Beginners

*Aug 2023*

*Udemy*

## INTERNSHIPS

---

### **Full Stack Web Developer**

*Aug 2022 - Sept 2022*

*Varcons Technologies Pvt Ltd*

### **Artificial Intelligence and Machine Learning Intern**

*Sept 2022 - Oct 2022*

*Inventeron Technologies*
